CHIEF EXECUTIVE

CHIEF FINANCIAL OFFICER

SUPERNET LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

1. THE COMPANY AND ITS OPERATIONS

Supernet Limited (the Company) was incorporated in Pakistan on March 14, 1995 as an unquoted public limited company under the Companies Ordinance, 1984. The Company is a wholly owned subsidiary of Telecard Limited (the Holding Company). The Company has been granted a license by the Ministry of Communications, Government of Pakistan to establish and operate a data network system in Pakistan. The Company is engaged in providing satellite and microwave communication services e.g. internet, radio links, single channel per carrier (SCPC), time division multiple access (TDMA), etc., and sale and installation of related equipment and accessories.

The registered office of the Company is located at World Trade Centre, 75-East Blue Area, Fazal-ul-Haq Road, Islamabad. The principal place of business of the Company is located at World Trade Centre, 10, Khayaban-e-Roomi, Clifton, Karachi.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Ordinance, 1984. In case requirements differ, the provisions of, or directives issued under the Companies Ordinance, 1984 shall prevail.

2.2 Accounting convention

These financial statements have been prepared under the historical cost convention except for the revaluation of certain financial instruments at fair value and recognition of certain employee retirement benefits at present value. These financial statements are prepared following accrual basis of accounting except for cash flow information.

2.3 Functional and presentation currency

Items included in the financial statement of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). These financial statements are presented in Pakistani Rupees (Rs.), which is the Company's functional and presentation currency.

2.4 Standards, interpretations and amendments to approved accouting standards

2.4.1 Standards, interpretations and amendments to published accounting standards that are not yet effective and have not been early adopted by the Company.

en

The following standards, interpretations and amendments to published accounting standards would be effective from the dates mentioned below against the respective standards or amendments:

| Standards/ am | endements/ interpretations | Effective date (accounting periods beginning on or after) |
|---------------|---|--|
| IFRS 2 | Share-based Payment (Amendments) | January 01, 2018 |
| IFRS 16 | Leases | January 01, 2019 |
| IAS 7 | Statement of Cash Flows (Amendments) | January 01, 2017 |

Annual improvements to IFRS standards 2014-2016 cycle. The new cycle of improvements addresses improvements to following approved accounting standards:

| IFRS 12 | Disclosure | of | Interests | in | Other | Entities | |
|---------|-------------|-----|------------|-----|-------|----------|------------------|
| | (Amendmen | ts) | | | | | January 1, 2017 |
| IAS 28 | Investments | in | Associates | and | Joint | Ventures | |
| | (Amendmen | ts) | | | | | January 01, 2018 |

The management anticipates that, the adoption of the above standards and amendments in future periods will not affect materially the Company's financial statements in the period of initial application.

In addition, the Companies Act, 2017 was enacted on May 30, 2017 and SECP vide its circular 17 of 2017 has clarified that the companies whose financial year closes on or before June 30, 2017 shall prepare their financial statement in accordance with provisions of the repealed Companies Ordinance, 1984.

Further, the following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

| IAS 27 | Equity Method in Separate Financial Statements (Amendments) |
| IAS 34 | Interim Financial Reporting (Amendments) |
| IFRS 12 | Disclosure of Interests in Other Entities |
| IFRS 13 | Fair Value Measurements |

2.4.3 Significant accounting estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgments in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historic experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions in accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

In the process of applying the Company's accounting policies, the management has made the following estimates and judgments which are significant to the financial statements:

| Note |

3. SUMMARY OF SIGNIFICANT ACCOUTING POLICIES

The signficant accouting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years for which financial information is presented in these financial statements, unless otherwise stated.

3.1 Fixed assets

3.1.1 Property, plant and equipment

These are stated at cost less accumulated depreciation and impairment losses, if any. Subsequent costs, if reliably measureable, are included in the asset's carrying amount, or recognized as a separate asset as appropriate, only when it is probable that future economic benefits associated with the cost will flow to the Company. The carrying amount of any replaced parts as well as other repair and maintenance costs, are charged to statement of profit and loss during the period in which they are incurred.

Depreciation is charged to statement of profit and loss applying the straight-line method after taking into account the residual value, if any, whereby the depreciable amount of an asset is written off over its estimated useful life at the rates specified in relevant note to these financial statements. The assets' residual values, useful lives and methods are reviewed, and adjusted if appropriate, at each reporting date.

Impairment loss, if any, or its reversal, is also charged to statement of comprehensive income for the year. Where an impairment loss is recognised, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value, over its estimated useful life.

In respect of additions and deletions of assets during the year, depreciation is charged from the month of acquisition and upto the month preceding the deletion, respectively.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gain or loss on derecognition of an asset (calculated as the difference between the sale proceeds and the carrying amount of the asset) is recognized in statement of profit and loss for the year.

Capital work-in-progress

Capital work-in-progress is stated at cost less impairment in value, if any. It consists of expenditure incurred and advances made in respect of fixed assets in the course of their erection, installation and acquisition.

Leased asset

The Company accounts for assets acquired under finance lease by recording the assets and related liability at fair value. Financial charges are allocated to accounting period in a manner so as to provide a constant periodic rate of interest on the outstanding liability.

Depreciation is charged at the rates specified in relevant note to these financial statements and is written off asset over its estimated useful life.

3.1.2 Computer software

These are carried at cost less accumulated amortization, and impairment losses, if any. Amortization is calculated, using the straight line method, to allocate the cost of software over their estimated useful lives specified in relevant note to these financial statements, and is charged to statement of profit and loss for the year. Costs associated with maintaining computer software, are recognised as an expense as and when incurred.

The amortization on computer software acquired during the year is charged from the month in which the software is acquired or capitalized, while no amortization is charged for the month in which the software in disposed off.

SOADS

3.2 Communication stores

These are valued at the lower of cost and net realisable value. Cost is determined using the first-in first-out method. Items-in-transit are stated at cost comprising invoice value plus other related charges measured thereon up to the date of statement of financial position.

Net realisable value signifies the estimated selling price in the ordinary course of business less costs necessarily to be incurred to make the sale.

3.3 Trade debts and other receivables

These are recognized and carried at their original invoice amount, less any estimate made for doubtful debts based on review of all outstanding amounts at the year end. Bad debts are written off when identified.

3.4 Cash and cash equivalents

Cash and cash equivalents are carried at cost. For the purpose of the statement of cash flows, cash and cash equivalents comprise balance with banks only.

3.5 Trade and other payables

Liabilities for creditors and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company.

3.6 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each date of statement of financial position and are adjusted to reflect the current best estimate.

3.7 Financial instruments

All the financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognised when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognised when they are extinguished i.e., when the obligation specified in the contract is discharged, cancelled, or expired. All financial assets and liabilities are initially recognized at fair value plus transaction costs other than financial assets and liabilities carried at fair value through profit or loss. Financial assets and liabilities carried at fair value through profit or loss are initially recognized at fair value, and transaction cost are charged to statement of profit and loss for that year. These are subsequently measured at fair value, amortized cost or cost, as the case may be. Any gains or losses on derecognition of financial assets and financial liabilities are taken to statement of profit and loss in the period in which they arise.

POMS

3.8 Off-setting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position, if the Company has a legally enforceable right to set-off the recognised amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.9 Impairment

Financial assets

The Company assesses at the end of each reporting period whether there is an objective evidence that a financial asset or group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset, and that loss event has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Non financial assets

The carrying amounts of non-financial assets are assessed at each reporting date or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If such indication exists, and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount. An asset's recoverable amount is the higher of its fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows. Non financial assets that suffered an impairment, are reviewed for possible reversal of the impairment at each date of statement of financial position. Reversal of impairment loss are restricted to the extent that asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss has been recognized. An impairment loss, or the reversal of an impairment loss, are both recognized in the comprehensive income of that year.

3.10 Employees' benefits

Gratuity fund

The Company operated an unfunded gratuity scheme for its employees upto March 31, 2008. Provision has been made to cover the obligation in accordance with the actuarial valuation using "Projected Unit Credit Method". The scheme was replaced by recognised provident fund scheme effective from April 01, 2008.

Provident fund

The Holding Company operates a recognised provident fund scheme for all its eligible employees. Equal monthly contributions are made by the Company and the employees to the fund at 8.33% of basic salary of the eligible employees.

Compensated absences

The Company accounts for these benefits in the period in which the absences are earned. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the date of statement of financial position.

Book

3.11 Taxation

Current

The current income tax charge is calculated on the basis of the tax laws enacted or substantially enacted at the date of the statement of financial position. Management periodically evaluates positions taken in tax returns, with respect to situations in which applicable tax regulation is subject to interpretation, and establishes provisions, where appropriate, on the basis of amounts expected to be paid to tax authorities.

Deferred

Deferred income tax is recognised, using the balance sheet liability method, on all temporary differences arising at the date of statement of financial position between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that future taxable profit will be available against which the assets can be utilized. Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the date of statement of financial position.

3.12 Foreign currency translation

Foreign currency transactions are translated into the functional currency, using the exchange rates prevailing on the date of the transaction. Monetary assets and liabilities in foreign currencies are translated into the functional currency using the exchange rate prevailing on the date of statement of financial position. Exchange differences arising from the settlement of such transactions, and from the translation of monetary items at the end of the year exchange rates, are charged to statement of profit and loss.

3.13 Revenue recognition

- Revenue from data networking services is recognised upon the rendering of such services.
- Revenue from sale of equipment is recognised when equipment is dispatched to customers.
- Return on bank balances is accrued using effective interest method.

3.14 Dividend and other appropriation of reserves

Dividends and appropriation to general reserves are recognised in the financial statements in the period in which these are approved.

33. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The risk is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the management. The Board of Directors supervises the overall risk management approach within the Company.

33.1 Market risk

Market risk is the risk that fair value of future cash flows will fluctuate because of changes in market variables such as interest rates, foreign exchange rates and equity prices.

33.1.1 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of changes in the market interest rates. As of June 30, 2017, the Company is exposed to such risk mainly in respect of return on saving accounts.

Management of the Company estimates that 1% increase in the market interest rate, with all other factors remaining constant, would increase the Company's profit by Rs. 2.591 million and a 1% decrease would result in an decrease in the Company's profit by the same amount. However, in practice, the actual results may differ from the sensitive analysis.

800053

33.1.2 Foreign Currency risk

Foreign currency risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of the changes in foreign exchange rates.

Management of the Company estimates that a 10% increase in the US\$ exchange rate, with all other factors remaining constant, would increase the Company's profit by Rs.28.432 million and a 10% decrease would result in an decrease in the Company's profit by the same amount. However, in practice, the actual results may differ from the sensitively analysis.

33.1.3 Equity risk

Equity risk is the risk of volatility in share prices resulting from their dependence on market sentiments, speculative activities, supply and demand for shares and liquidity in the market. As of June 30, 2017, the Company is not exposed to equity price risk.

33.2 Credit risk

Credit risk is the risk that counter party will cause a financial loss to the Company by failing to discharge its obligations. The table below analysises the Company's maximum expose to credit risk.

| | June 30, | June 30, |
|-------------------|-----------|-----------|
| | 2017 | 2016 |
| | (Rupees | in '000') |
| Trade debts | 1,106,899 | 930,308 |
